<sup>1</sup> This radio meets IP67 standards. It will withstand submersion of up to 1m for 30 minutes. Radio floats with included NiMH battery. It may not float with some AA batteries. Use of headset should be in dry environments only.

<sup>2</sup> The communication range quoted is calculated based on an unobstructed line of sight test under optimum conditions. Actual range will vary depending on terrain and conditions, and is often less than the maximum possible. Your actual range will be limited by several factors including, but not limited to: terrain, weather conditions, electromagnetic interference and obstructions.

<sup>3</sup> The Emergency Alert feature should only be used in the event of an actual emergency. Motorola Solutions is not responsible if there is no response to the emergency alert from the receiving group.
